	ANNUAL MEETING
	All AIAMC Meeting Space is on the Main Level of the Resort
8:00-10:00	Pre-Conference Workshop: Educator's Forum
Shoal Creek AB	This session will focus on the interests and needs of AIAMC educators, including Program Directors, DIOs and Administrators. The intent of the program is to exchange good ideas and receive advice on educational dilemmas you may be facing. All attendees are welcome to make a brief presentation and the forum will be driven by the shared issues identified. This workshop will be highly interactive and offers an excellent opportunity to begin networking with AIAMC colleagues before the Annual Meeting's official kick-off mid-day. Please note that seating is limited, and pre-registration is required.
10:00-11:00	Pre-Conference Book Club
Shoal Creek AB	 Back by popular demand is the 3rd Annual AIAMC Book Club! This year's selected readings are: Rafael Campo article and poems: <u>https://harvardmagazine.com/2019/05/poetry-medicine-doctor</u> Carver poem: <u>https://www.poeticous.com/raymond-carver/what-the-doctorsaid</u> We are taking the hypothesis that literature has something to teach us about the humanity of medicine, a much- needed tonic for our times. The format of this session will be thought provoking and provide an interactive method designed to increase awareness of humanity in medicine. Please note that seating is limited, and pre-registration is required.
11:00-11:45	Welcome Lunch for First-Time Attendees

	U.S. physician workforce. This interactive seminar will help you identify the needs of your residency program for recruiting underrepresented in medicine (URM) students, identify metrics for success, and create strategies to use mentoring and other tactics as to meet your goals. The participants will learn about a unique recruitment mentoring program created by an independent academic medical center with over 380 residents in over 30 residency programs in response to a need to increase the diversity of the medical staff, in partnership with affiliated medical schools. The mentoring program provides personal support, a longitudinal curriculum for professional development, an annual stipend for travel and other professional development, and opportunities for loan repayment if the student successfully matches into a residency program within the hospital system. Retention data, return on investment, and lessons learned along the journey of developing this 10-year old program will be shared. A resident physician who participated in the program as a medical student will share their personal reflections on how the program impacted their personal and professional development and influenced their decision to continue in the hospital system. At the end of the session, the participants will have a guided session to craft a proposal for implementing program-specific initiatives in mentoring and other tactics for recruitment of URM students into their residency programs. Future work to address key issues for URM recruitment, including rotation access, unintentional effect of filters in ERAS, and perception of social isolation, will also be shared.
