Benefits

Graduate Medical Education

- Place to archive & store their dissemination
- Dissemination continues even after the presentation
- Students can go back and get a scope of the work that is done by residents and fellows

Library

- Align with organization's goals
- Support Graduate Medical Education
- Foster relationships
- Support dissemination

Baptist Health South Florida
Center for Research

Future Plans

- Multimedia content
- Funding for a copy editor
- PubMed!!!

Requirements (those with an asterisk are pending)

- Publish peer-reviewed content
- Publication must have an ISSN
- Article titles and abstracts should be in English
- Published for at least 12 months
- Published a total of at least 40 primary articles *
- Evidence of a regular publication schedule *
- Publication is a collection of articles by different authors
- Content is issued over time under a common title
- Publication is intended to be published indefinitely
- Provide XML-tagged citation and abstract data *
- Have an acceptable arrangement for permanent preservation of, and access to, the content
- References in Roman script
- Publication ethics/publication malpractice statement *

Baptist Health South Florida
Center for Research

*Elevating **care** through **discovery***

Other Wins! – Expert Gallery

- **Promote dissemination**
- **Improve research impact factor**
- Exposure may lead to more **opportunities to connect** with grant funders, research collaborators, and maybe even patients who are doing their own research.
- **Live CV**
- **Support organizational marketing efforts**

The screenshot shows a professional profile for Michael Chuong, a Radiation Oncologist. The page includes a header with his name and title, a bio, and a list of selected works. A red circle highlights the 'Works' tab, and another red circle highlights the 'Jump to Category' dropdown menu, which is currently open, showing options like 'View All', 'Articles', 'Book Chapters', 'Posters', and 'Presentations'. The works listed include articles on PET/CT imaging, liver proton therapy, and prostate cancer survival.

Selected Works of Michael Chuong
Radiation Oncologist

Dr. Chuong is a board-certified radiation oncologist at Miami Cancer Institute. Previously, he was an assistant professor of radiation oncology at the University of Maryland School of Medicine and Maryland Proton Treatment Center. His clinical specialty and research focus is on the use of radiation therapy to treat gastrointestinal cancers, especially those of the liver and pancreas. He is proficient in the use of the most advanced forms of radiation therapy. He has significant experience with translational research and clinical trials, and is well published in multiple peer-reviewed scientific journals. He has received numerous awards, including the [read more](#)

m.wolak@elsevier.com | 510.520.5584

“Modern IR”- Supporting core value propositions

Improved patient care & patient engagement

Support innovation by acknowledging contributions

Global Health Equity & Impact to Public Policy

Scholarly & Expert Recognition

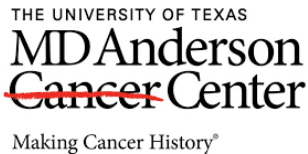

Foster better collaboration and encourage new developments

Our Growing Community

The Children's Hospital
of Philadelphia®

Today over 600
institutions use Digital
Commons to support
over 2100 journals

“Scholarly Works...enhances our scholarly reputation and research credibility by allowing people from outside our organization and within it to find posters, papers, presentations, reports, articles, book chapters, and other items written by colleagues and affiliated staff.”

“Now there is a single access point so items are visible and can be found easily.”

Linda Matula Schwartz, Director of Library Services, Lehigh Valley Health Network

Koch, A. (2013, March). A Q&A About Our Scholar Works Repository. CheckUp.
<http://scholarlyworks.lvhn.org/historicalarchives/2/>

University of Nebraska
Medical Center

Nebraska Medicine

“I encourage others to participate because DigitalCommons increases your research visibility and also because it is a simple and effective means to communicate. I have been interested to see that my most frequently downloaded papers from DigitalCommons are not strictly my most frequently cited. Thus, DigitalCommons serves a role that complements the literature and allows additional research to reach more people.”

Justin L. Mott, MD, PhD
Professor, Biochemistry and Molecular Biology -UNMC
