Unintended Consequences

Improving Results Through Reflection and Revision

Identify something that happened during your project that was unexpected or unanticipated. Then, we will work through it using the below format.

When not presenting, listen carefully to identify contributing factors, opportunities, and lessons learned.

Sharing Format: (3–5 minutes each)

1. What was your aim or goal? (Plan)

2. What happened? (DO)

- What data or evidence are you using?
- What actions did you take

3. Why do you think it happened? (Study)

- Any assumptions that you/your team made that may have contributed (skills of team, stakeholders, timelines, evidence, resources, budget)

4. What would you do differently, next time? In hindsight, were there any warning signs overlooked? (Act)

Break

11:15am – 11:30am
