# Activity #1

Describe inclusion efforts at your graduate medical education program and within your health system

# Activity #1A

Independently review current practices within  
your program/health system

2 minutes

# Activity #1 B

With a partner, evaluate these practices through the lens of inclusion and the lens of antiracism

2 minutes

# Activity #1C

With a partner, consider the strengths, weaknesses, opportunities, and/or threats of these practices as they pertain to the goal of creating an antiracist culture

2 minutes

# Activity #1D

Describe inclusion efforts at your graduate medical education program and within your health system

Share with the group

4 minutes

# Barriers

- Ourselves
- Departmental support
- Competing tasks
- Multidisciplinary engagement

# Implicit Bias

Automatic attitudes about members of distinct social groups that unconsciously affect our beliefs or actions

Everyone has  
it

Doesn't always  
align with our  
beliefs

Tends to favor  
our own ingroup

Conscious  
Values

Implicit  
Bias

# Assembling Your Team

- Stakeholder analysis
- Cognitive diversity

# Assembling Your Team

- Cognitive diversity
  - Ideas, problem solving methods, perspectives, lived experiences
  - Especially important within medicine
  - Alternate is group think

# Activity #2

Develop Long Term Goals for your Program

# Activity #2A

Reflect on any personal barriers or biases that need to be addressed

2 minutes

# Activity #2B

Identify allies and barriers in your department

2 minutes

# Activity #2C

Create one long term goal for your program

1 minutes

# Activity #2D

Questions?

Concerns?

Reflections?

# Our Path

♥ you are ♥  
**WORTHY**

**I GOT YOUR  
BACK**

# Activity #3

Transforming Your Long Term Goals into  
SMART Objectives

10 minutes

# Activity #3A

- **Specific:** Concrete, detailed, and well defined
- **Measurable:** Allows for means of quantification and comparison
- **Achievable:** Feasible, easy to put into action
- **Realistic:** Considers constraints such as resources, personnel, cost, time
- **Time-Bound:** Sets boundaries around the objective

# Activity #3B

Share your long term goals and SMART objectives

10 minutes

# Objectives

1. Define inclusion and antiracism
2. Reflect on the current inclusion efforts within your health system
3. Examine common personal and system barriers for antiracism work
4. Develop goals for antiracism work within your healthcare system/residency programs
